Subject: RE: Delisting Area 40 from federal supervision and DOD clean up subsidy

Hi, Larry.

I just wanted to clarify that Area 40 will not be deleted from the Superfund site unless and until all clean up systems are in place and functioning as intended. In the near term, the State has agreed to take the lead agency role at Area 40 to see it through a RAP, remedial design, and remedial action. However, EPA will still be involved; Area 40 will still have a Proposed Plan and ROD completed by EPA in the next year or so. EPA will also approve the final remedial design, and approve remedial action complete. Once EPA approves remedial action complete, EPA will resume the lead agency role. At that time Aerojet may request site deletion of Area 40, or pursue a Ready for Reuse determination (which keeps the site on the NPL but allows for appropriate redevelopment).

Pete and Alex probably clarified your State funding question, but I just wanted to make it clear that Area 40 will not be delisted any time in the near future while the decision documents, remedial design, and cleanup are occurring.

Thanks, Larry,
Lynn

Alex,

If Area 40 is delisted from the federal Superfund program, does the Department of Defense cleanup subsidy agreement with Aerojet still apply to the site? I assume so, but sometimes these lawyer folk can be really wiley with the fine print.
